

# Classification of Industries & Assessment Rates

---

**2024**

## How to use this book

This book lists the 2024 assessment rates for every \$100 of gross payroll. The 2024 Maximum Assessable Earnings Level is \$78,400.

### How rate groups are determined

The Workers Compensation Board (WCB) classifies employers into industries based on their primary business activity. Then, they further divide the industries into industry groups, based on those business activities. Industry Groups are assigned to a rate group within their class or sector, based on their historical injury cost experience. Industry groups within the same rate group pay the same assessment rate. The WCB bases the assessment rate on the cost of claims for the entire group. This way, employers collectively share the costs of claims within their rate group.

Some employers participate in the Experience Rating Program and their rate may differ from those in this book. For more information about the Experience Rating Program, see the *Experience Rating Program FAQ*.

### How to find your rate

This book contains two sections: the Industry Index, organized alphabetically, and the Assessment Rates, organized by rate group. If you do not know your rate group, use the Industry Index. You can find your industry group, rate group, and the page number for your rate in the Assessment Rates section. Use the Assessment Rates section to find the assessment rate for your rate group. The Assessment Rates section also lists the Standard Industrial Classification (SIC) code for your industry. The WCB will provide notification of individual assessment rates to all employers.

### Do you have questions?

For more information about employer assessments and classification, visit [wcb.pe.ca](http://wcb.pe.ca). If you have questions, please contact WCB Employer Services at 902-368-5680 or toll free in Atlantic Canada 1-800-237-5049.

## 2024 Industry Index

	Industry Description	Industry Group	Rate Group	Page
